

Clean Up

- All tools should be cleaned and stored as per workplace practice.
- All scrap and empty packaging will be gathered and disposed of as per workplace practice.

Industry productivity guidelines

This unit standard requires that your work must meet industry productivity guidelines, which set out the amount of suspended ceiling you are expected to be able to install in a day:

You need to consistently achieve:

- *Install grid only for a standard two-way exposed grid suspended ceiling (1200mm x 600mm) 40m² per day.*
- *Install grid only for a one-way exposed grid suspended ceiling 40m² per day.*
- *Install grid only for a fully concealed grid suspended ceiling 40m² per day.*
- *Install grid only for a plaster board suspended ceiling (screw fix system) 40m² per day.*
- *Install infill ceiling panels to a standard two-way exposed grid suspended ceiling 80m² per day.*
- *Install infill ceiling panels to a one-way exposed or fully concealed grid suspended ceiling, including splines, 50m² per day.*
