

The Maths Booster

FREE for BCITO apprentices

The Maths Booster programme will give you **a learning boost early in your apprenticeship, supporting you to succeed and improve your numeracy skills.**

TRAINING COVERS:

- » Pythagoras' theorem
- » Calculating percentages
- » Making accurate measurements
- » Calculating values using formulae
- » Interpreting graphs and tables
- » Measuring angles
- » Recognising geometric concepts and shapes
- » And much more.

DELIVERY:

- » 2 hours per week x 6 weeks
- » Online (Zoom delivery)
- » Skills specific to those needed for the apprenticeship
- » Wednesday evenings 6:30-8:30pm

LEARNER FEEDBACK:

"Kelly was great at explaining and took the time for anyone struggling, wouldn't proceed unless everyone was clear."

"I'm not the sharpest tool in the shed, but this course really helped me understand a lot more."

Starts

Wednesday 25th February
